

The road to the future

Integrate climate change education into the Education Act

Develop resources in partnership with different education practitioners and experts

The future we want

Climate change education that is for and by citizens of Solomon Islands

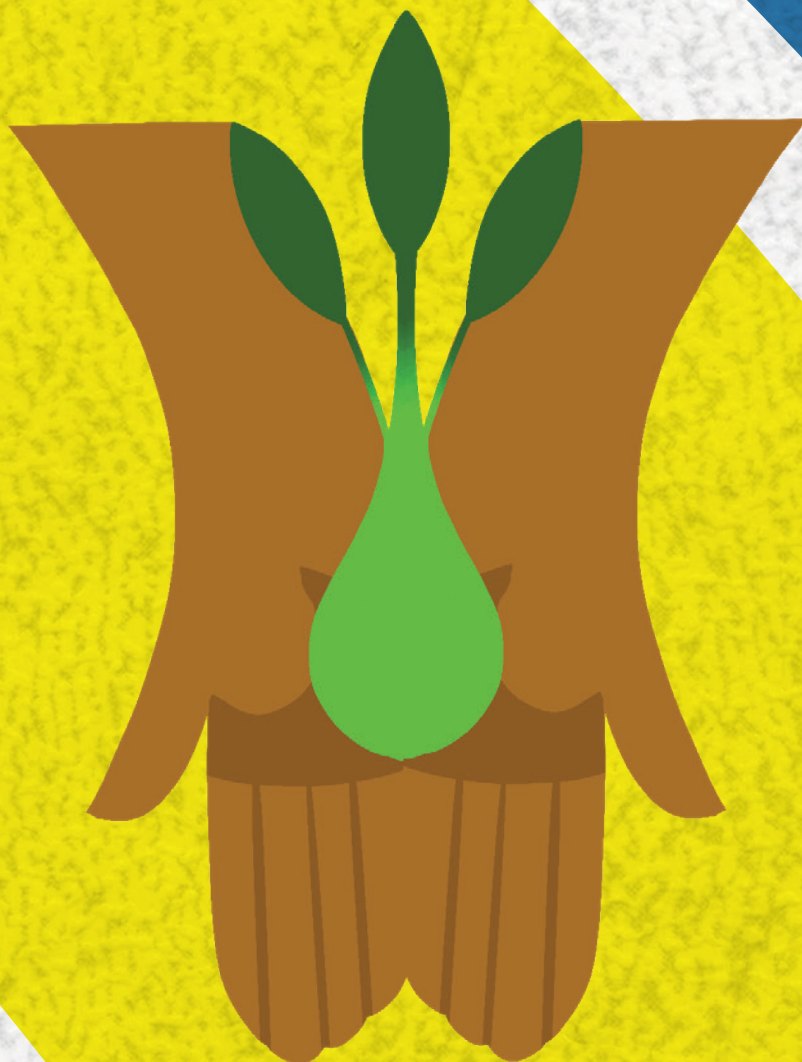

Translate learning resources into various indigenous languages

Climate change impacts on education

Inaccessible roads leading to schools due to more frequent and intense typhoons

A curriculum that emphasises practical skills and sustainability

Campaign to get commitments from government officials and politicians

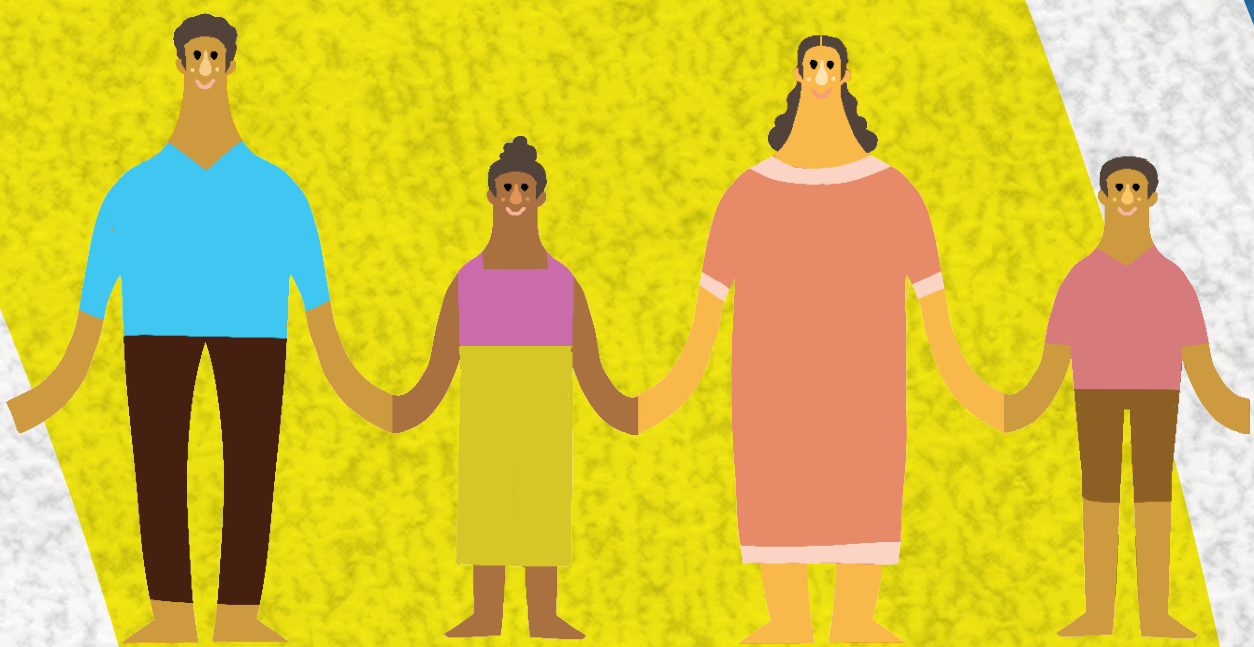

Ensure accountability commitments of politicians

Solomon Islands

MAPPING TRANSFORMATIVE CLIMATE CHANGE EDUCATION

Climate damages lead to higher costs of running schools

Inclusivity in CCE, encompassing all communities regardless of age, gender etc.
